THE FIRST DIGITAL LIGHTING CONFERENCE AND EXHIBITION
About LpS Digital

Like the LED professional Symposium +Expo and Trends in Lighting Forum &Show that took place at the Festspielhaus in Bregenz/Austria every year since September, 2011, LpS Digital is meant to approach and support the complete value chain in the global lighting industry.

When it comes to Technological Design, LpS Digital’s goal is to provide Corporate Management, Technical Management, R&D and Production/QM within the global lighting manufacturing industry with top notch technical knowhow, primarily on a component level.

In terms of Lighting Design, LpS Digital will show best practice for Architects, Lighting Consultants, Electrical Consultants, Lighting Designers, Lighting OEMs, IT/IoT System Integrators and students.

The editors focus on Human Centric Lighting, Connected Lighting, Smart Controls, Internet of Things, Light as a Service and much more.
LpS Digital
for Exhibitors and Sponsors

Are you a manufacturer of products or lighting solutions, test or production equipment? Or are you a service provider in the field of lighting from design to installation? We have established the perfect opportunity for you to present your products and/or services efficiently and purposefully to potential customers through TOP channels.

Our offshoot of the LpS can save you money on stand costs, personnel costs as well as helping to protect the environment. And most importantly, your employees will not be confronted with health or travel risks. LpS Digital gives you the opportunity to present your services to the world of light to a total of 60,000 contacts. Using LpS Digital to present your products to this highly qualified audience is the most effective method to market your innovations quickly and efficiently.

On top of being able to present your products and services, LpS Digital will also share your contribution to an interested audience via TOP social media channels. This enables you to interact directly with your audience. But not only that: Your product or service will automatically participate in the LpS and TiL Awards ceremony, which will be held in September.

Have we caught your attention? We would be happy to discuss your specific needs with you!
LpS Digital will bring you current, high-quality content about lighting technologies, design and applications, and acquaint you with the latest trends in product developments and applications.

Every lecture and expo presentation will be shared to more than 60,000 contacts in the lighting domain through premium, high-qualified media channels.

The motto for 2020: Experience the Future of Light

LECTURES
The authors of contributions accepted by the program management will be invited to give a presentation and, if appropriate, to write a qualified article. Each presentation will be announced to over 60,000 contacts and followers immediately after publication.

VIRTUAL EXHIBITION
Virtual exhibitors have the possibility to present their products via video for a fee. The maximum length of the presentation is 20 minutes. Each product video is announced to over 60,000 contacts via newsletter and social media channels.

- LED professional Review: 27,500

DESIGN CHANNELS
- Trends in Lighting LinkedIn Group: 4,600
- Trends in Lighting Online: YES
- Trends in Lighting Newsletter: 15,000
- LED professional Review: 27,500
LpS Digital
Numerous Opportunities

Generally speaking, the same considerations apply to the digital conference and exhibition as the event in Bregenz.

1. CONFERENCE | LECTURES
(SUBMITTED AND INVITED)

As set out in the original roadmap for LpS/TiL 2020, authors will be informed whether or not their submission was accepted by the program management by the end of March. If accepted, the lecture will be recorded by the LpS Digital management via Internet and the paper (if an agreement has been made) will either be published in a corresponding LpR or made available in the digital proceedings in September. The video presentation will be published immediately after completion.

A lecture can also be sponsored. This lecture will be labelled "sponsored". The presentation is subject to the same criteria as a standard conference contribution in order to keep the quality of the presentations high.

Booking Option: "Sponsored Lecture"

Pricing:
# EUR 4,990.– / USD 5,590
(shared to one channel Technology OR Design)

# +25% for both channels
(technology AND Design)

2. EXHIBITION (VIRTUAL BOOTH)

The virtual exhibition is made up of videos published in the Exhibition section of the LpS Digital website and distributed through the technology and/or design tracks. The product presentation can take the form of an explanation, an interview or a virtual booth presentation.

Booking Option: “Virtual Product/Booth Presentation”

Pricing:
# EUR 4,990.– / USD 5,590
(shared to one channel Technology OR Design)

# +25% for both channels
(technology AND Design)
LpS Digital
A Myriad of Opportunities

Generally speaking, the same considerations apply to the digital conference and exhibition as the event in Bregenz.

3) LPS DIGITAL SPONSORSHIPS

The LpS Digital webpages can be branded with a 728x90 leader board banner. Each sponsor banner is limited in number and can be targeted for the Technology and/or Design tracks.

Sponsorship Options: Conference and Exhibition Branding
